Suma® Diversol CX D10.6

Chlorinated powder cleaner/sanitiser

Suma Diversol CX D10.6 is a chlorinated cleaner, sanitiser and destainer formulated for use in food preparation areas as well as for use in Food Processing, Beverage, Brewing and Dairy industries. It is also ideal for fruit and vegetable washing.

Features:

- Concentrated cleaning power for excellent results and economy
- Use for cleaning, destaining and/ or sanitising most equipment, parts and surfaces
- Excellent stability of available chlorine on storage
- Contains chlorine which is a broad spectrum antimicrobial
- Safe to use on most surfaces such as stainless steel, porcelain and most plastic. Not recommended for aluminium or melamine

Benefits:

- Suma Diversol CX D10.6 is a unique formulation combining available chlorine and a wetting agent, which provides greater penetration and better rinsing
- Stable powder provides assurance that freshly prepared solutions contain available chlorine
- Dissolves quickly – solution easily prepared
- Safe and easy to handle
- Brightens stainless steel
- Leaves equipment with fresh clean smell

Designed For

- Hospitality
- Lodging
- Healthcare
- Food Service

Use Overview

Instructions for Use:

Cleaning and Sanitising

1. Remove gross soiling from surface to be cleaned.
2. Dilute Diversol CX 3–6g/L depending on soil.
3. Apply to surface by mop, sponge, brush or spray.
4. Leave for 3 minutes contact time.
4. Rinse product contacting surfaces with potable water after use.
5. For separate sanitising, pre-clean surfaces and then sanitise with 3g/L Diversol CX solution (100ppm).

Fruit and Vegetable Washing

1. Pre-rinse food with fresh water.
2. Clean and rinse sink or soak container.
3. Fill clean sink or container with Diversol CX solution – 1.5g/L water (50ppm solution).
4. Submerge vegetables and leave in solution for 3-5 minutes.
5. Rinse with potable water and allow vegetables to drain well.

Destaining

1. Wet surface and sprinkle on.
2. Allow to contact surface for 10-30 minutes depending on level of destaining required.
3. Rinse product contacting surface with potable water after use.
