e-Flush

Toilet bowl, urinal cleaner and deodoriser

GECA and Global GreenTag PlatinumHEALTH HealthRATE Certified

Reduces build-up of uric acid

Formulated with active microbes

Readily biodegradable

Biosystem and septic safe cleaner

Utilises the power of active microbes to eliminate odours

e-Flush is an effective, biological treatment for cleaning and deodorising washrooms, toilets, urinals and stainless steel troughs. Washroom odours hide deep within tiles, grout, traps and plumbing lines, making them hard to access and eradicate. The beneficial microbes in e-Flush digest organic debris at the source and target the breakdown of insoluble and unsightly uric scale, significantly reducing its build-up and potential to block pipes. e-Flush provides excellent all-round performance, designed to clean, refresh, eliminate organic waste build-up and deodorise by successfully destroying the source of bad odours.

144069	750mL	Spray Bottle (Empty)
144071	1L	Squeeze Bottle (Empty)
160258	1L	Squeeze Bottle (RTU)
160259	5L	Ready To Use

Applications

Suitable for toilets, urinals and stainless steel troughs.

Ingredients

< 5% nonionic surfactant, potassium sorbate, perfume. RTU has a microbial content of 1e7cfu/g. Immunocompromised individuals should avoid contact with products containing microorganisms.

Storage

Store in a cool, well ventilated area. Keep container tightly closed.

Direction Of Use

Toilet Bowl Cleaner
Squirt onto surface to be cleaned, brush then rinse.

Dilution
Ready to use

Urinal cleaner and odour control

Spray on surfaces, brush and rinse as required.

Dilutions
(1:3) 330mL per L of water
190mL per 750mL Spray Bottle

Health and Safety Information

Wash hands thoroughly after handling. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation develops: Get medical attention. Keep out of reach of children.

Poisons Information Centre

Australia 131 126; New Zealand 0800 764 766. Additional information is listed in the safety data sheet.
